## FARM LAND LISTINGS

We have been appointed Local Agents for the Canada Colonization Association, Limited, an organization established for the purpose of bringing new settlers into Canada. This association charges no fees and is maintained by private and government grants for the purpose of advertising and organizing agents.

The only fee payable is the agent's commission. Over 250 agents are now established throughout the United States and we believe this is the best opportunity ever offered for securing buyers provided price and terms are right.

Let us have listing immediately so that same may be placed with the Association in good time, possibly to secure fall prospects.

## Flood, Whicher & Elves

## GENERAL NEWS

If one man owned all the wheat there would be no need of a pool—the price would just stay put.

Peter Koch of Lomond who escaped from custody at Macleod was lately captured and was sentenced to ten years imprisonment.

Jos. W. Hays, of Michigan, says: "Our coal will be gone in a hundred years." We do not agree with Mr. Hays. Our coal disappeared last winter.

The hunting season will be ushered in on Sept. 15th this year, when it will be lawful to shoot ducks. This is a new regulation, the season heretofore opening on the 1st of September.

The National Grain Elevator Co. at Ensign are tearing down their old elevator and replacing it with a larger and more up-to-date building, which will be in readiness for this year's grain traffic.

The Kansas wheat crop has slumped to an average yield of nine bushels to the acre and a crop of 79,596,000 bushels, which makes it rank as the second smallest in ten years, according to the federal crop statistics for Kansas.

Hon. J. A. Robb, minister of trade and commerce, has been appointed minister of immigration and will be succeeded by Hon. T. A. Low. Another change in cabinet ranks at Ottawa is that of E. M. McDonald being appointed minister of defence.

"How did your daughter pass her examination," asked one mother of another. "Pass!" was the answer. She didn't pass at all. Perhaps you wouldn't believe it, but they asked that girl about things that happened long before she was born!"

Ten vessels of the Canadian Merchant Marine now on the Great Lakes will be used in the grain carrying trade this season if American ship owners refuse to comply with the new grain rates regulation passed at the last session of parliament. These ships could not be put to better use so why delay doing so?

When the Empress of France docks at Quebec on September 10, it is understood that she will have as a passenger the Prince of Wales. Though no official announcement has been made it is reported that the Prince will have six people in his party. Suite No. 4 on the liner is said to have been reserved for the Prince, and they will proceed at once to his High River ranch.

Vice-President D.C. Coleman of the C.P.R. says that work in connection with the construction of the line from Kipp to the Little Bow river will be commenced early in the spring of 1924 and pushed vigorously to completion so that the road will be finished in time to take care of the 1924 crop. This will be good news to farmers in that district who are now obliged to haul their grain a distance of over 20 miles to market.

## VULCAN AGAIN

Publicity Continues to be Given to This Town

More has been added to the fame of Vulcan by The Billiard and Bowling News, by the following from that publication for July, under the heading "Vulcan, a Brunswick Town": In the busy little town of Vulcan, Alberta, they have two of the most up to the minute billiard rooms, anywhere in the West and we take pleasure in publishing views of both these rooms in this month's issue of the Billiard News. These rooms are owned by Ernie Russell and Roy Ferguson, and, as was to be expected, Brunswick equipment is used exclusively in both places. Both these boys are wide awake and real good fellows, as anyone will find, if they happen to visit Vulcan. Just in case some of our readers wonder what made Vulcan the famous little town it is, outside of the fact that they can grow grain around there like some people grow dandelions in other parts of the world, it is also the home of the champion "horse handler" of the world. This gentleman merely shook a clean rein over sixteen teams of horses, without batting an eyelash. Then too, Vulcan lays claim to having, if not the finest, at least one of the finest babies in the country. If you don't believe us, just ask Roy Ferguson. He admits it.

## FLOWER SHOW

Vulcan Horticultural Society Has Successful Exhibition

There is a world of beauty in a bunch of flowers. That Vulcan and vicinity can grow flowers of extraordinary beauty and great variety was demonstrated to a delightful and satisfactory degree by the display made at the exhibition under the auspices of the local horticultural society on Wednesday afternoon. The display was indeed a delight to all and a revelation to many, and those who failed to view the product of local gardens, both town and country, missed a sight that could not but command admiration. It was the first Vulcan flower show and as such it was indeed a fine success, of which much will yet be said, for the many people who were there will talk of the beauty of the event for some time to come. The list of prize winners will appear in the next issue of The Advocate, together with an article of comment by Messrs. Webster and Sinclair, of Calgary, who officiated as judges, and this will include valuable hints on the growing and showing of flowers, the object of the horticultural society. The Advocate is proud of the part it played in promoting the flower show, and pleased to publish credit to the exhibitors for the flowers exhibited, and also praise is due for the successful conduct of the event to the officers and committee of the Vulcan Horticultural Society, who are as follows: President, F. J. Stewart; Vice President, Mrs. G. W. Buck; Secretary-Treasurer, Geo. Whicher; Committee, Mrs. King, Mrs. Pettman, Earl Clark, J. A. Lindsay, F. A. Elves and Harry Nelson.

## THEY DRAW

Royal Air Force and Vulcan Play Football

The last game in the league series between the Royal Air Force team and Vulcan was played at Vulcan on Friday evening, and the result was the same as that of the game between these teams at High River, a tie.

The score just about indicates the play, the first half being without a score, both teams trying hard without success to secure a lead. It was first one way and then another, as it generally is when the teams are so evenly matched, and the period furnished a strenuous time for the players and fine entertainment for the spectators.

With the change of ends the battle went on for a time as before, but with a short combination of really splendid plays the visitors put one past that no goal keeper could get. Then there was the extra effort of Vulcan, to even with a like determination on the part of the visitors that they should not, and the game speeded up and interest increased. There were but a few minutes to go when a unit on the attack was made by Vulcan, resulting in a shot on goal. The goalkeeper caught the ball on the goal line, and before he could deliver was pressed through for a count, making the score a tie, which the few minutes left to play did not change.

It was a good game, enjoyed by all, and the manly and sporty demeanor of the airmen put them up high in the estimation of our citizens, and Vulcan is pleased to play and entertain such good fellows as these.

The Vulcan team was composed of Collier, goal; Davies and Stewart, backs; Clare Marcellus, Howard Marcellus and Jose, half backs; Kitto, Whicher, Carson, Orton and Earl Marcellus, forwards. The referee was W. E. Butchart, whose work in this capacity has made him a popular league official.

## THEY PASSED

Vulcan Grade Ten Pupils Make Good in Exams.

Ten of the fifteen Vulcan candidates dates in Grade 10 have succeeded in the examinations which passes them to Grade 11, and these are Mary Terry, Ruth McArthur, Grace Marshall, Jessie Sinclair, Addie Flood, Esther Grant, Grace McDonald, Joe Korezynski, Ben Herdman, Tom Brooks. These are not named in order of merit. Ten out of fifteen is a creditable percentage and credit is due the school and teachers and congratulations to the successful students.

## WHEAT POOL

Capacity Crowd at the Wheat Pool Meeting

Never were so many men in church before in Vulcan, for it was at the Union church that a wheat pool meeting was held on Monday night. It was an evidence of the splendid interest being taken by the business men of Vulcan and the farmers of the district in what is truly the greatest proposition that has as yet been presented to the people of the province. And the significant feature of the event was the fact that they were practically of one accord on the matter of the wheat pool.

Mr. O. L. McPherson, like all other members of the provincial legislature, charged with the dissemination of information in connection with the proposition and with organization in the drive for contract signatures, is indeed prosecuting the task. His address, which can be best described as a plain, easily understood statement of the wheat pool proposition, without promises, was perhaps the best that he has yet made to his constituents at this point. It was a real business talk splendidly supplemented by the clear and unqualified answers given by him to the many questions presented. It was plain to all that there was no politics in his position, but the effort of an interested citizen in the question that interests all citizens, and all present were imbued with a like spirit, and the splendid unanimity apparent is an indication that the wheat pool will have great support in Vulcan and district. Following the meeting there was a session of the central committee on the sign-up campaign, selected by the meeting and composed of Mayor Butchart as chairman and A. J. Flood as secretary, and Messrs. Brunton, Walker, Monds, McIntyre, Lommattsch, Nelson, Oldfield, Sinclair, Charters, Gibson, Whicher, Donaldson and Colwell.

There was also a meeting next day of this committee, and arrangements made to present an opportunity to every grain grower in the territory of signing the wheat pool contract, and before this is read it is confidently expected that the work and object of the committee will have been accomplished.

## LOCAL ITEMS

Misses Mary and Mildred Doyle have returned home after spending a delightful vacation at Staveland.

Wouldn't it be great if we bragged about our town while it is, as we do when we get away?

Miss Edwards, of the teaching staff of the High River schools, is spending a week in Vulcan, a guest at the home of Mr. and Mrs. W. D. Allan.

The painting and decorating of the interior of the Rex market adds beauty and attractiveness to this place of business and maintains the high standard of tidiness of this cleanly shop.

By a change of events, Mr. and Mrs. George Pettman have returned from Carseland to again reside in Vulcan. They are the kind of citizens who will be welcomed back. Mr. Pettman has resolved to open a barber shop in town, announcement of which will be definitely made in an advertisement in this paper next week.

To celebrate the completion of the building of a fine new barn, there was a barn dance at the premises of Mr. Morris Lyman on Wednesday evening, and so attractive is an event of this kind to young and old of both town and country that there were more than two hundred people present, and everybody must have had a great time for those from town came home with loud praise of the fine cordiality with which they had been treated. The refreshments served were first class in quality and quantity, and the music by Vulcan citizens' band made dancing on the new barn floor a real delight. Less than a year ago the building on the same site was destroyed by fire and this has been replaced by a fine barn of large dimensions, excellent design, and splendidly equipped, which will be a real utility to the owner and is a credit to the builder, Contractor Walter Mays of Vulcan, who has had a very busy season on such contracts as this. Buildings of the kind are being erected here and there over the country, giving to our district more of the real appearance which it merits, and while Mr. Lyman secures something of benefit and profit to himself he contributes much of value to the community.

## LOCAL ITEMS

Miss Marian Leeson of Didsbury, is visiting with Mrs. F. A. Elves. Mrs. W. W. Browne of Waldo, B. C., is visiting in town, the guest of Mrs. D. C. Jones.

Mr. and Mrs. H. C. Jacques visited in Vulcan this week and were pleased to meet friends in the old home town.

Mrs. J. A. McAlpine, who has been visiting her daughter, Mrs. Eshom, at Moscow, Idaho, has returned to Vulcan.

Mr. W. L. Nagle, farmer north of town, who has been in Ingersoll, Ont., for the past year, has returned to look after his interests here.

Mr. Alf Bell, of Calgary, has entered the employ of Mr. A. G. Spooner as salesman in the well known clothing and furnishing shop.

Mayor Butchart was down to Champion the other day officiating as referee in the football match between Champion and Royal Air Force.

The license fee of \$100 for slot machines in Vulcan has been reduced to \$50. There are three machines of the kind in operation now in this town.

The playground proposition is again receiving attention by the municipal authorities, the council having authorized the fencing of the property and the preparation of the grounds for tree planting and other improvements.

Roy Kergusson, the local baseball manager, and a number of our fans went over to Staveland on Wednesday to see Staveland and the Calgary Hustlers in a double-header in the elimination series of the provincial baseball championship. Staveland won first by a score of 4 to 2, and the Hustlers won the second by a score of 8 to 0.

Mr. and Mrs. Geo. Eamorr and family have returned to Vulcan after an outing of a month or more joyously spent at Gull Lake and Sylvan Lake. Mr. Eamorr does not come back to business as a merchant, this holiday following the sale of his grocery business which for some time he conducted with profit to himself and satisfaction to his patrons. His business operations and his town loyalty have been such as to make him a valuable citizen, which all will be pleased to know he will continue to be.

Vulcan had a visitor last week in the person of Mr. C. H. Hooper, principal of the school of agriculture at Clarksburg, who was in town and vicinity in connection with registered seed wheat which is being grown in this section. Mr. Hooper, of course, is directly interested in Vulcan school fair, and he expressed his confidence in the success of the event this year, his opinion being based on the fair of last year and his knowledge of the energy and efficiency of the fair committee and the talent and surprise of the school pupils in the Vulcan school fair area.

Members of the Royal Air Force, at High River, a dozen or more, visited Vulcan on Tuesday, and they made an attractive appearance in their natty uniforms of blue. Vulcan was pleased to see them and welcome them. They did not fly over, but they negotiated the trip in good time with one of the air force auto trucks. With the party was Major Croil, first in command at the air station. They are a splendid bunch of boys and good sports, just the kind that Vulcan likes to entertain.

The secretary of the Community club has received from Councillor McHugh of Municipality No. 189 a map plan of a proposed auto route from Edmonton and Calgary to Great Falls and passing through Vulcan, coming by way of Carseland. This map and the proposed trail should be of interest to motorists, and worthy of the consideration of the municipal authorities and community club members, for the establishment of such a route through this territory and this town could not but be of benefit to both. Tourists coming this way would certainly be an advantage, and the route would be the shortest trip from Vulcan to Calgary.

Now that the season has gone and baseball is past, a few facts in reference to the Vulcan ball team will be of interest. They played twenty-eight games, won fifteen, lost eleven and were tied in two; of these eleven were played at home, with four losses and seven wins. Recor and Vaughn played in every game, and were the only two. The longest game played was that against Nanton which went seventeen innings, and was pitched by Joe Glenn, and ten of which were without a hit. Vulcan scored the biggest score of any game in the league against Carseland in the last home game here, the count running up to twenty or more. They started the league by losing to Nanton and finished the season by defeating the same team. To win more than you lose is a fair and satisfactory record for a ball team, to which can be added the credit of giving the champion Staveland team the best contests in the league series. The team played every engagement possible, and they have the reputation in the league of being game and good losers. Mr. Frank Keiver, of Vulcan, umpired more games than any other official in the league. This is not a bad record for 1923.

## LOCAL ITEMS

Misses Jean Skelthorne and Betty Irvine of Staveland, are visiting with Mrs. Frank Keiver.

Mr. Widdop, manager of the St. George Hotel at High River, was a Vulcan visitor on Monday and a caller at the Advocate.

Mr. Dan Sims has been appointed, as caretaker of the Vulcan schools, and has already commenced preparations for the re-opening of school on September 4th.

Commissioner Bryan, of the Alberta Provincial Police, made an inspection of the police detachment at Vulcan last week and to the credit of Constable Davis is the fact that all is first class.

"Gone fishin' for ten days; anything urgent phone Banff." This notice, tacked on the door of his place of business, indicates the whereabouts of C. B. Shimp, and with him is Mrs. Shimp, and we know they are having a good time.

There is a postponed game of football yet to be played at Vulcan between the Vulcans and the Vulcans and the effort is being made to arrange this game for Labor Day, September 4th. It would make a splendid holiday event.

The time of school re-opening approaches, the definite date being September 4th, the day after Labor Day. The teaching staff is now complete, and on that day it is expected that everything at the Vulcan schools will be in readiness for the commencement of a successful fall term.

Mrs. Geo. W. Buck, vice-president of the Horticultural Society, won first prize for best arranged bouquet of sweet peas at the flower show, and the bouquet was presented to the Advocate. Mrs. J. L. Kehr also made a gift of three lots of prize winning flowers to the editor. Other exhibitors were generous in their gifts of flowers to those who do not grow them.

This is the time of year and the kind of year when farmers require much help, and as in times past, the Imperial Hotel is functioning as an employment bureau, and Mr. Angus Sinclair is also giving time and attention to this work, both working separately and together for the benefit of the community. This is a service voluntarily and freely rendered and one that will surely be appreciated.

That Vulcan is exceptional in more ways than one is evident from the following, which was printed in the Vermillion Standard, copied by the Lamont Tribune, and sent to us by a friend way up north, and it is reproduced as emphasizing our appreciation of a good turn by a good people, and estimated as miraculous by contemporaries: "Lots of people will argue until they are black in the face that the days of miracles are past, but the Standard is in possession of facts that establish miracles can take place to-day as of old. The place where this miracle transpired is the town of Vulcan, Alberta. The latest record in the hands of the Standard states that there is but one church in the place and this may account in a measure why it happened—but we don't say it was. Now for the miracle—the advertisers of the Vulcan Advocate all decided to make payment for their advertisements for three weeks and allow the paper to cease publication for that period. The whole-hearted spirit on their part enabled H. Nelson, the editor, and his wife to attend the Dominion weekly press convention in Halifax. This should silence all scoffers.—Vermillion Standard."

Andrew Larson and J. L. Kehr, prominent citizens of the district, who have lived long in the land and prospered, and have for years been intimate friends, only the other day in conversation at a picnic on the premises of the latter discovered that of miles apart; they were born on the same day, August 14. Mrs. Larson and family had arranged to celebrate father's birthday, and this took the form of a duck dinner, to which Mr. Kehr was invited, and a number of others. It was a real feast, set with abundance, and the fine taste that is everywhere apparent in connection with the beautiful Larson home. A feature of the dinner was the illuminated birthday cake, a super cake creation bearing colored lighted candles, one for each year of the age of the principals in this event. The good wishes of the guests were heartily expressed to Mr. Larson and Mr. Kehr, and the public, to whom both are well known, will join in the wish for many happy returns. The Advocate has mentioned in times past some of the homes and premises in town and country which are the pride of the community, and this gives opportunity to make reference to the attractive home and farm of Mr. Larson. Who lives there is the invariable query of the stranger that goes by that way, and it is prompted by the location of an attractive and commodious house in the midst of a garden of trees and flowers, and adjoining are the vegetable garden and fields of waving grain, all the evidence of good taste and exceptional attention to proper farming methods. The Advocate man bears testimony to the splendid hospitality of this estimable family.

# The "Right" Way

## There's No Better Method

of reaching the people than through the medium of the Classified Advt. Everybody reads them, for they are news to those who seek something and likewise news to those having something to sell. THE VULCAN ADVOCATE  
VULCAN, ALBERTA

### WHEAT POOL EFFECTS

This is the week for the drive on the signing of the contracts for the formation of the wheat pool and we look to the full accomplishment of the purpose in this regard. Fifty per cent of the wheat in the country must be contracted for before the pool can or will, practically operate, and from the enthusiasm already displayed we look for a much larger percentage of signers than this. We predict that it will go "over the top" with a rush and well this should be so. It is high time that the most wanted commodity in the world should receive its due desert in the mercantile markets of the world and that its producers should receive a fair compensation for their labors in raising it. The wheat pool promises to effect this, and while the advantages of its proper working may not be fully appreciated this year, its permanent life will reveal the wisdom of its organization. Its objects will not solely be the direct marketing of the exportable amount of wheat raised each year, but a varied and comprehensive study of the wheat marketing conditions of the world with a view to knowing the future requirements for export use and anticipating the volume of crops to meet such requirements. Thus there will be no overproduction with consequent ruinous prices. With production equal only to the actual demand, a fair price for the product can be realized. With production less than the demand a better price still is obtained, and it will be the duty of the governing board, and it is really possible, by mathematical calculation and persistent scrutiny of the world conditions, to limit the production of wheat to fairly meet all requirements at a price which will be fair to the consumer and profitable to the raiser. This in the event of a world wide organization of the wheat growers, which is ultimately the purpose and goal of the pool. This is a big proposition but is entirely feasible and can be accomplished. Canada as the greatest producer of exportable wheat should properly take the initiative in placing its prime product on a legitimate and business basis, and it is up to the farmers of this country to express their desire for independence by making the start and signing up the contracts now being circulated, and thus expressing their determination to put their business on a paying basis.

### SHOULD TAKE A REST

The visit of Premier Greenfield in Southern Alberta where he has delivered addresses on co-operative marketing and other subjects has given many people an opportunity of seeing and hearing him for the first time since he has assumed the premiership of the province. Meeting a man personally and getting the personal touch is very helpful to all concerned and such visits count for a great deal and Premier Greenfield is to be commended for his endeavors to appear at various parts of the province in order to strengthen the farmers in their attempt to form a wheat pool that we all hope will give to them greater marketing privileges. Premier Greenfield has not had a holiday since he assumed the roll of office but he hopes that after the wheat pool question gets cleared away he will be enabled to take a rest to which he is entitled.

### GASOLINE STILL HIGH

On August 14 gas was selling at 15.4 cents at Chicago and as low as 11 cents in Dallas, Texas. Here in Alberta gasoline was retailing at 45 cents to the gallon. It would appear that nothing can affect gasoline prices in Canada and we must continue to pay tribute to Canadian oil interests. It is pointed out that the imperial gallon used as a standard of measurement in Canada is almost 20 per cent greater than the standard used across the line.

### CLAUSE "D"

Prohibitionists and Moderationists are in hot debate over the possibilities of Clause D. Prohibitionists declare that the passing of Clause D would enable any government so desiring it, to permit the old bar. The Moderationists insist that the aim of Clause D is not to bring back the bar. In a way both are correct. Clause D provides for the sale of beer—not hard liquor—in licensed places. It leaves to the legislature the regulation of the sale—where, how and when the beer shall be sold. The Moderationists have always insisted, even when appearing before the legislative committee drafting the questions, that they did not want the return of the bar and included such a statement in the proposed ballot submitted at that time. The Albertan is quite confident that if D passes, this government and this legislature will do their utmost to have conditions as different as possible from the old days of the bar. It doubts, after the repeated statements of Moderationists, if any government or legislature would dare permit what we generally regard as the old bar system. Clause D permits the sale of beer in licensed places. There may be a difference between the former method of selling it to men standing up at a bar and the proposed method of selling it to men sitting down at a table. (Morning Albertan)

### EDITORIAL PARAGRAPHS

#### (Kincardine Review)

Those Toronto bank robbers had a clearing house of their own. A high brow is a man who says "Certainly, Michael" instead of "Sure Mike."

When men wear corsets it cannot be said they have no visible means of support. There are still some optimists in Ontario. The birth rate is increasing. Deliberation is a quality affected by a twosome when there is a foursome right behind.

Now is the summer of our brief vacation made tedious winter by having to return to work. So live that when your summons comes you can swear you were not there at all.

People who bought expensive cars from General Motors paid a 30 p. c. dividend on the common stock.

One man swam across Lake Erie; another across the English Channel. Wonderful! That shows it can be done.

What with the high price of motor cars and repairs, oil and gasoline, it costs a lot of money to even live these days.

Funny thing that none of those who told of the ten books that gave them most pleasure mentioned the bank book.

Many tried the examinations and some of them did very poorly but not one of them got so low a mark as Germany.

That's going some! The German printers who turn out paper marks have gone on strike demanding that they be paid in gold marks.

Some of the "Bathing Beauties" whose pictures you see in the papers would be alright if they were bathing or if they were beauties.

Again we have the case of a man trying to commit suicide after committing a murder. Apparently it never occurred to him to reverse the process.

The late President of the United States was born on a farm. The new President was both born and reared on a farm. Some of the strength of the soil passes into its sons.

Perhaps it is because we are getting old but honestly we do not think that the matches they are making now are as good as the kind they used to make.

Complaint is being made that the government is building and improving harbors in the maritime provinces that are not needed. The government is afraid that if it grudge a harbor the people may harbor a grudge.

Doubtless many people still think that America should take a hand in saving Europe. If America could do this the step would be momentous, but there is no cure for Europe's madness; Europe is already close to the precipice and only too ready to jump over.

Miracles never happen to stop the fall of a rotten civilization.

A quarantine on all fruits and vegetables offered for import into the U.S. except from Canada becomes effective on November 1st. This is as it should be and we are glad to see our neighbor make a distinction between this country and Europe. Such acts will tend to strengthen the bond of friendship between that country and Canada.

## D.D.D. Prescription for Eczema

THE Lotion for Skin Disease Soap

ERRETT KING, DRUGGIST

### CONSIDER THE EDITOR

"Consider the editor," says an exchange. "He weareth purple and fine linen. His abode is among the mansions of the rich. His wife has her limousine and her first born sports a racing car that can hit her up to seventy flat."

"Lo, all the people break their necks and hand him money."

"A child is born unto the wife of a merchant in a bazaar. The physician gets 25 golden plunks. The editor writeth a stick and a half and telleth the multitude that the child tippeth the beam a nine pounds. Yea, he lieth, even as a centurion—and the happy father giveth him a cigar."

Behold the young one groweth up and gradueth. And the editor putteth in his paper a swell notice; yea a peach of a notice. He telleth of the wisdom of the young woman and her comeliness. Like unto the roses of Sharon is she, and her gown is played up to beat the band, and the dressmaker getteth two score and a half iron men, and the editor getteth a notice of thanks from the S.G.G.

"The daughter goeth on a journey and the editor throweth himself into the story of the farewell party. It runneth a column solid, and the fair one remembereth him from afar with a postcard that costs six for a jitney."

"Behold she returneth and the youth of the place fall down and worship. She picketh one and lo, she picketh a lemon. But the editor calleth him one of the most promising young men, and getteth away with it. And they send unto him a bid to the wedding feast, and lo the bids are printed at a Winnipeg mail order house. Long and flowery is the wedding notice the editor printeth. The minister getteth ten bones, and the groom standeth the editor off with a 12 months' subscription."

"All flesh is grass and in time the wife is gathered into the silo. The editor printeth a death notice, two columns, of an obituary, three lodge notices, a eulogy of poetry, and a card of thanks. And he forgetteth to read proof on the head, and the dam thing comes out "Gone to her last Roasting place."

"And all that are akin to the deceased pump on the editor with exceeding great pumps. And they pull out their ads and cancel their subscriptions, and they swing the hammer unto the third and fourth generations."

"Canst thou beat it?"

### BELIEVES IN ADVERTISING

The Ford Motor company has decided to spend \$7,000,000 in advertising in various newspapers and magazines throughout the country during the next year, Norton T. Brotherton, advertising manager for the company, announced late today. The company has done no advertising for the last five years, leaving it to local dealers throughout the country. The Ford Advertising company some time ago was re-established with Brotherton at its head. The advertising will be placed by the Brotherton agency of New York City, which Brotherton says is an independent organization.

Black 2-cent stamps will be issued by the U.S. government as a token of the nation's mourning and respect for the late President Harding. A very fine tribute to the memory of an estimable man.

### PRESS COMMENTS

Kincardine Review:—The western experiment with a voluntary grain pool will be watched with interest and in the hope that it succeeds in securing the grain growers a reasonable price by preventing the glutting of the market after harvesting. The conditions under which the farmers raise grain are hazardous. It is a gamble in which the grain grower bets his money on the weather. He bets there will not be too much moisture or too little. He bets against hail, wind, rust, wire worm and weevil of all sorts. If he wins it should be a long shot. But generally it isn't because the bulk of the harvest goes on the market at the same time. This the pool is supposed to prevent or at any rate to lessen. Winnipeg Free Press:—At the present time conditions in Canada are gradually but steadily improving. Our international trade is the greatest in our history; the same is true of the national revenue; Canada's credit in the money markets of the world never stood higher than today and there is in Western Canada at the present time the prospect of an excellent wheat crop. There is no excuse for pessimism nor for disparaging Canada as compared with any other country. But there is abundant ground for steady, reasoning confidence in the future—particularly if we do not leave providence to do everything.

"I do not feel that a government guarantee is necessary," said Premier Greenfield, in connection with the wheat pool. "Wheat is good enough collateral if it isn't, then we had all better quit."

## Moderation League of Alberta

### DIRECTION TO VOTERS

This ballot has been approved by the Alberta Legislature and will be used to decide the liquor issue by means of the single, transferable, preferential vote.

### SAMPLE BALLOT

(a) PROHIBITION—Meaning thereby a continuance and development of the present liquor legislation; that is, meaning the abolition of the sale of all liquors excepting for strictly medicinal, sacramental, manufacturing and scientific purposes.	
(b) LICENSED SALE OF BEER—Meaning thereby the sale of beer in licensed hotels and other premises as provided in the proposed Temperance Act.	3
(c) GOVERNMENT SALE OF BEER—Meaning thereby the sale of beer by or through government vendors for consumption in private residences under government control and regulation, other liquors to be sold through doctors' prescription for medicinal purposes.	2
(d) GOVERNMENT SALE OF ALL LIQUORS—Meaning thereby the sale of all liquors by or through government vendors, beer to be consumed on licensed premises and in private residences; wines and spirits to be purchased in limited quantities under permit issued by the government, under government control and regulation.	1

Vote 1, 2, 3, from the Bottom Up. Do Not Use "X."

Voting on this ballot is done by numerals, 1, 2, 3, 4, placed opposite the question on right hand column, in the order of your choice and NOT by marking "X" opposite a definite question.

IF "X" IS MARKED ON THIS BALLOT, THE BALLOT BECOMES INVALID.

The ballot contains four alternative questions. A voter may vote for all four if he desires, but must do so by indicating the order of preferences, 1, 2, 3, 4. Plumping is permissible. It is desirable that a decisive vote be delivered on Government Control, which is the "D" question.

One way or other this referendum should settle the question finally for some years to come, but the vote should be decisive. SEE THAT YOU CAST YOUR VOTE. DO NOT USE "X." The Moderation League urges every one to put "1" in the column opposite Proposition "D" and advise, in order to avoid confusion that the policy to be generally adopted should be, to follow this up consecutively putting "2" opposite "C" and "3" opposite "B." This is 1, 2, 3, from the bottom up.

"D" ECIDE "C" ONSCIENTIOUSLY "B" BEFORE "A" CTING.

## THE HEBRIDEANS

Now Located on Land which will be Their own. Appreciate Services Rendered

In a letter of appreciation to the Red Deer papers, the Rev. Father McMillan who came over last May with a party of Hebrideans to Red Deer, refers to the splendid hospitality extended the party from the moment they entered Canada. The officials of the C.P.R., C.N.R., and citizens of Red Deer and district are mentioned with deep appreciation and gratitude for the splendid service rendered the Hebrideans who came to the west to settle. The writer continues: "These men are now placed on land which will be their own. They have established their homes. The writer has visited them in their different locations, and he is perfectly delighted with the kindly way in which they have taken to their new surroundings. If disappointment did exist, it is now a dead thing of the past, and the dawn of contentment and prosperity is ushered in. The story of our transmigration is so well known that it need only be referred to, how we left our homes in the enchanted Isles of the Hebrides imbued with the spirit of our forefathers, full of hope and determination to better ourselves, and how after braving the perils of fog at sea, and floods on land, we ultimately reached our destination. Our sojourn in the Industrial school, Red Deer, in spite of rumors which said that we were disappointed and dissatisfied, will ever remain with us a period of green with happy memories, when as one family we viewed Canada and Canadians, when the spirit of Canadian life was infused into us, and we realized that henceforth we were to be important factors in the welfare of the finest country in the world."

### ESCAPE FROM JAIL

During Dr. Rivers' term of office as warden of Lethbridge jail a unique record was established at that institution with regards to allowing prisoners on their word of honor to work on the farm without being under the scrutiny of guards. Of late there has been what might be termed an epidemic of jail breaks, one of which refers to Vernon F. Tigner of Blackie who was serving a sentence of fifteen months for theft. The following regarding the escape is from the Lethbridge Herald:—Escaping from custody has become quite a fashion of late. The latest is the getaway of two men from the provincial jail last night. Up to noon the men were still at large. The men, Harold Griffiths and Vernon F. Tigner, were employed as trustees, the one on work in the warden's house and the other in seeing to the chickens. They were brought to the jail last June to serve a sentence of fifteen months for theft, Griffiths from Calgary and Tigner from Blackie. Search is being made for the escaped prisoners. The A.P.P. bloodhounds cannot be put on the trail, as the dogs are suffering from swollen feet in the hard work they have been lately put on in tracking Peter Koch and Jack Richards who escaped from the custody of the A.P.P.

### BIG TWINE ORDER

What probably constitutes a record delivery of twine to one individual farmer was made at Blackie last week when Robt. Wilkinson, implement dealer, delivered to C. H. Wilderman one load consisting of 6000 lbs. of International Twine. The entire crop of 2000 acres is a fine tribute to Mr. Wilderman's system of farming, and he is to be commended on his enterprise in displaying such wonderful courage in seeding such a large acreage in the face of conditions that existed last spring.

Potato trade is rather slow now that the new crop is coming in.

## ABSOLUTELY SOUND

Mr. Sapiro's Verdict on The Wheat Pool Procedure of the Alberta Committee of Seventeen

Some apprehension had been apparent for the last week as to the business procedure of the wheat pool committee of seventeen in their submission to the growers of the wheat pool contract and their requests for signatures thereto, before making definite arrangements for elevators and for financing the project. Three members of the committee, including John I. McFarland, have resigned from the committee and refuse to act, because of their disapproval of this procedure, claiming it is unbusinesslike, and two of the members have publicly advised their reasons and advised the farmers not to sign up the contract. These incidents, coming as they did, just previous to the drive for signatures to the contracts, created no little stir and unsettledness in the minds of a great many of the growers and the results are being watched with interest. That the committee have been strictly following the advice and procedure as proposed by Mr. Sapiro when here, and to dispell any intimation or belief that they were not so doing a telegram was sent to Mr. Sapiro in this regard and the following wire received from him which entirely approves of the committee's actions and relieves entirely the situation as regards these points. The wire reply: "Deeply regret the resignation of John I. McFarland. I had a conference with five members of the wheat pool committee and we agree on every detail. The present plan of immediate incorporation and campaign for signatures is absolutely sound. Please advise Mr. McFarland that it is impossible to make arrangements for elevators or financing or personnel before the sign-up campaign. But these three things should be handled by special committees working at the same time with the sign-up campaign. On the elevators, I recommend contracts of use with option of purchase, but no purchase immediately at the start. On financing, I recommend arrangements for advance payments of loans from banks of approximately three-fourths of the present cash price in Alberta. On management, I believe the committee on personnel should select an experienced man for general manager and that technical men should be selected by the interprovincial pool to handle the selling and other technical problems for the three provincial organizations. Deeply trust that seventy five per cent of the farmers of Alberta will sign the agreements and create an effective pool this week. I know this will be the best thing they ever conceived for Alberta." (Signed) Aaron Sapiro." The above looks like a complete vindication for the committee of seventeen and sets at rest the indefiniteness of purpose which has been somewhat in the minds of many interested persons and determines the question as to the entire practicability of the plan of procedure which the committee has adopted.

### ALBERTA CO-OPERATIVE WHEAT PRODUCERS, LTD.

The Wheat Pool is being organized along the following general lines:—

The name will be the Alberta Co-operative Wheat Producers, Ltd., organized under the Co-operative Associations Act, and will be an absolutely non-profit making company.

The province will be divided into seven districts, and the contract-signers will annually elect, by post card ballot ten delegates in each district. These delegates will meet and elect their own trustee for one year, which will provide a board of seven trustees. The trustees must be wheat producers and must be residents of the districts they represent.

Owners of 50 per cent. of wheat acreage must sign before effective. Contract for period of five years.

Advances will be made on grain delivered on a basis of safe banking practice.

Each applicant must subscribe for one share of capital stock, par value \$1.00, and also pay \$2.00 to assist defray expenses of organization. This must be paid in cash or a note given at time of application.

Provision is made for a Dominion Wheat Pool Selling agency with other provinces when organized.

The Wheat Pool committee will appoint the first seven trustees to act for three months until the contract-signers can elect their own trustees.

The Wheat Pool committee is endeavoring to have all possible information available for the trustees.

The contract will provide that not more than 2c. a bushel may be retained for the purpose of providing elevator facilities.

The following methods of providing elevator facilities present themselves:

(1) By the purchase of as many elevators as might be found feasible on the basis of a reasonable deduction from the proceeds of the grain.

(2) Or by arranging with elevator companies to handle the grain of pool members on a basis somewhat similar to that of the Dominion government wheat board of 1919-20.

(3) Or by leasing elevators. None of the companies so far have consented to deal on this basis.

The dairy industry continues to make headway in the province of Alberta, 15 more creameries being in operation this year than in 1922. It is estimated that the total creamery butter production will be about 18,000,000 pounds, 3,000,000 pounds more than last year. There is considerable increase in the acreage of fodder crops particularly in corn.

## ALBERTA BULLETIN

Issued by Publicity Commissioner of Alberta

Regarding the closing of Raymond school of Agriculture, the government was actuated by the spirit of economy, and with a return of good times this place would be reopened.

The first samples of mature wheat grown in Alberta this year is of an excellent grade. The kernels were fully matured, of good color, plump and looked like No. 1 hard.

G. E. Beutel, who at present is staying in Idaho, in a letter written back to Alberta, tells how he purchased land in the vicinity of Edmonton 14 years ago for \$20.50 an acre, and sold it in 1920 for \$95 an acre, having farmed it in the intervening years.

The Prince of Wales will sail from England the first week in September to visit his ranch west of High River, Alta., coming directly to this province as soon as landing. He will return home about the end of October. The Earl and Countess of Minto are also to spend some time on their ranch adjacent to that of the Prince.

Preparations are being made for the taking of the plebiscite on November 5, on the liquor act proposals. J. D. Hunt, clerk of the executive council has issued special instructions as to the method of voting under the transferable vote system in order that the public may be properly informed on the new method.

Conventions which are to be held in Alberta during the next month or so include the national telephone convention in Edmonton the last week in August, the convention of sanitary engineers of Canada in Calgary Sept. 5 to 7, the Canadian brotherhood of trainmen in Calgary, Sept. 17 and 18, and the general synod of the Anglican Church of Canada in Calgary Sept. 16 to 25.

J. L. Cote, liberal member of the Legislature for the riding of Grouard, has been appointed to the Senate of Canada in the vacancy created by the death of Senator Forget of Banff. Mr. Cote was a former member of the Stewart government in Alberta. His appointment to the federal house creates the second vacancy in the Alberta house, the death of Dr. State, member for Clearwater, having occurred last week.

Following the final signing of the necessary agreements by the officials of the C.P.R. and E.D. and B.C., in which there had been some delay, the provincial railways department were able to award contracts the past week for construction of both the Grande Prairie and Berwyn extensions in the north country. The announcement was made during the week by Hon. W. V. Smith, minister of railways.

Practically half of the number of harvest hands required in Alberta have now been received and all placed on farms, according to the bureau of labor. During the week end about 1400 more arrived in the province and are being placed this week. Two more excursions from the East, one on the 21st and the other on the 25th will bring a large number. Manitoba is now through its harvesting season, and those harvest hands now arriving from the east will come to Alberta and Saskatchewan.

Visitors to the publicity bureau at the government buildings during the week included Mr. C. Hanbury-Williams of Montreal, journalist, who is writing a series of articles on the west for British and Canadian papers; Thornton Smith, news editor of the Wisconsin Agriculturist of Racine, Wis., and Conrad F. Wright of Stanford University, California. Mr. Wright is collecting data for the food research institute of Stanford University, and has secured a mass of statistics on Alberta crops since the formation of the province. Visitors the coming week will include Mr. Wright A. Patterson, editor-in-chief of the Western Newspaper Union of the United States.

Statistics issued by the dominion bureau of statistics give the death rates in each province of the dominion as follows: Infant death rate—Prince Edward Island 92.7, Nova Scotia 125.3, New Brunswick 142.4, Ontario 115, Manitoba 115.4, Alberta 97.5, British Columbia 72.9, the percentage being fixed on 1000 living births. Death rate per 1000 of population—Prince Edward Island, Nova Scotia, New Brunswick and Ontario 1.1, Manitoba .7, Saskatchewan .6, Alberta .6, British Columbia .8. This shows that the death rate in Alberta and Saskatchewan is the lowest in all Canada.

Definite steps are being taken by the department of education this year to eliminate as far as possible the confusion and waste of time and effort that frequently occurs in the placing of teachers in the schools of the province following the midsummer holidays. Special instructions have been issued by Hon. Perren Baker, minister of education, to all school inspectors, to concentrate upon the problem and to make it their first business to see that all the schools in their several inspectorates are open at the beginning of the term. Mr. Baker has appealed to all school boards and to teachers to co-operate to this end and to work through the inspectors in getting vacancies filled. Teachers are asked, as soon as they have secured schools, to notify all other boards to whom they may have applied for positions, and school boards are asked to notify all applicants as soon as they have filled a vacancy. With more co-operation along this line, Mr. Baker believes that the delay which frequently occurs in the opening of rural schools at the beginning of the term might be eliminated.

George Lane spent the week end in the south motoring to his various properties and returned to Calgary on Monday morning. In the south around Carmangay and Champion he found the crops ready for the binder with grain in excellent shape.

Work at \$3 per day offered by the C.P.R. to harvesters stranded in Lethbridge has been refused by many who refuse to work for less than \$4 per day. Strange that these men would prefer charity to going to work at \$3 per day.

## RED CROSS NEWS

Mrs. Lillian Downey is the guest of Mrs. Jack McRea.

Mr. and Mrs. T. E. Rudd and daughter, Mrs. Service, of Medicine Hat, were visitors at D. L. Doane's, A. J. Clayton, Joseph Richardson, and Mr. Hearn's last week. Mrs. Rudd is a sister of Mr. Hearn. They motored all the way and said the crops looked very good all the way, but nothing to compare with those in the Vulcan district.

Mrs. Cavanaugh, a daughter of Mrs. Dunham, and two children, returned home to Craigmyle on Friday. Miss Grace Dunham accompanied her as far as Calgary, where she will visit for a short time.

Congratulations are due our young students of Red Cross, Mayview and Highland schools, who were successful in their entrance examinations, and much credit is due the teachers of the different schools for the very faithful and efficient work done.

Master Gordon Johnston met with a very painful accident last Wednesday, Aug. 15th, when he and his brother James were driving along the road past Mr. Peterson's ranch, one of the tugs came unhitched, causing the tongue to fall, the horses took fright and ran away and, as they turned the corner, toward Mr. Fulton's, the democrat turned over, and Gordon was caught underneath, and was dragged some distance. He was taken to Dr. Carson, who found it necessary to have him sent to Calgary hospital and after an X-ray examination it was found his shoulder was badly broken. He is home again and we hope he will soon recover.

Mr. Leonard Rushfeldt from Cochrane, is visiting with his parents.

Mr. and Mrs. Wm. Hay of Lethbridge are visiting with friends in the district.

A. J. Clayton and family and Miss Mary Fulton motored to Lethbridge last Sunday and were the guests of Rev. J. P. Jones, returning on Monday. Mrs. Clayton and Artie remained until Friday, coming home on the evening train.

The Redlandview W. I. met at the home of Miss Gwen Davis, with seven members and six visitors present. This was the smallest meeting for some time owing to the very busy time.

Miss Davis, the new president, occupied the chair and filled it most capably. Mrs. Alcock, district convenor was present and gave a talk on child welfare and temperance and also explained why the government wanted to do away with the grant. Bazaar work was then taken up and arrangements were made to hold a bazaar some time early in November. Mrs. Dave Churchill rendered two pleasing solos.

## BERRYWATER NEWS

A few of the people from around here attended the dance at Union Jack Friday evening.

We notice some of the farmers have started harvest. Others will fall in line in a few days.

A temperance meeting was held in Berrywater school Friday evening. Rev. Mr. Brunton and Mr. Donald Sinclair addressed the meeting.

Miss Jessie Sinclair of Vulcan visited Miss May Ryan and Miss Katie Mills a few days last week.

Mr. Dave Munsey has treated himself to a Ford car.

Among those who motored to Cardston Saturday were Mr. and Mrs. L.A. Douglas, Miss Gilhooly, Miss Robinson and Mr. Lunn Oldfield.

Mr. Angus Sinclair of Vulcan was a caller in our burg one evening last week.

Mr. and Mrs. D. Mills, Miss Katie Mills and Mr. D. Simms visited at Mr. Graham's at Vulcan, on Sunday.

Mr. and Mrs. Jack McLean and children spent Sunday in Aldersyde. We are sorry to hear Mrs. Versden Adair is on the sick list.

Mr. and Mrs. G. Broderick and children of Olds are visitors at Mr. R. N. Broderick's.

Mr. George Ryan has treated himself and family to a new Ford car.

Eastway school reopens on Monday with Miss Timms as teacher.

## MAYVIEW NEWS

Mr. Hearn enjoyed a visit from his sister, Mrs. Rudd, Medicine Hat, recently.

Mr. and Mrs. Smith and family spent Sunday with the former's uncle and aunt at Milo.

Mr. Joe Richardson was a Calgary visitor last week.

Mr. Crick has gone to Calgary for medical treatment. Hope soon to hear of his complete recovery.

Mrs. Burr, Mr. and Mrs. Stein and children and Kenneth and Annie McLean spent Sunday at Mr. Shaw's.

Sorry to report Master Gordon Johnston suffering with a broken shoulder.

We are pleased to welcome Mrs. Deitz back after spending several months at Staveland.

Mr. Oldfield and Miss Belle Oldfield, of Carleton Place, Ontario, also Mrs. W. Oldfield and children of Berrywater, called on Mrs. Stein one day last week.

Misses Edna and Rita McIntyre, of Reid Hill, visited their cousin, Miss Lorna Richardson, recently.

Mr. and Mrs. O'Neil spent Sunday with Mr. and Mrs. Tom Robson at Berrywater.

Mrs. Shaw visited friends at Milo recently.

Mr. and Mrs. Stein and children attended the High River fair last week.

Mr. Art Noble and his mother of Aldersyde, were Sunday visitors at Mr. Mulligan's.

The Mayview U.F.A. met on Friday, August 17th, with a good number of members. Mr. Burr resigned as secretary and Mr. Leslie Richardson was elected to the office. Date of next meeting announced later.

## REID HILL NEWS

The 8th Grade students of last term at Reid Hill school are jubilant, word having just been received that all four students passed successfully during the recent examinations. Considering the youth of these pupils great credit is due Mr. Beaubier for his efforts on their behalf. Their names are: Howard McKay, Frances Warden, Genevieve Prifer, Roy Sharpe.

Reid Hill school is to commence work again this week.

We notice many strange faces about these days. Our harvest helpers are welcome to our midst in more senses than one.

On Tuesday, 21st August, a meeting has been arranged in the community hall at which the Wheat Pool is to be explained to us by Mr. McPherson, M. L. A.

The W. I. of Reid Hill will proceed to Vulcan on Sept 7th and entertain the W. I. at the "city."

## BRANT NEWS

Services were held in the Catholic church Sunday, August 19.

Mr. John Rhodes took out two new Deering binders Saturday.

Mr. G. B. Wilson of High River was a Brant visitor one day last week.

Mr. and Mrs. Thos. Johns and children have as their guest Mr. Johns' father, of Ontario.

Mr. Dad Fletcher was a business visitor in Calgary Thursday and Friday of last week.

Mr. and Mrs. William Crauch and children of Seattle, Wash., arrived in Brant Friday last.

The U.F.A. held their monthly meeting at the home of Mrs. Jess Kelly on Saturday, August 18.

Earl and Douglas Malmberg were Sunday visitors in Brant, the guests of Lawrence St. Clair.

Mrs. Chapman has been visiting her daughter, Mrs. Dave Bertrand and family the past week.

Mr. J. North of Calgary conducted the services in the Brant Union church on Sunday, August 19.

Some hail accompanied the down pouring rain Wednesday, August 15th. A few farmers put in claims for damages.

Harvest is getting well under way. Ira Olsen and L. J. St. Clair were the first in the Brant district to start cutting oats.

Mr. and Mrs. Fred Fletcher returned Friday from their trip north-east of Brant, where they had been visiting Mrs. Fletcher's sister.

Quite a number of interested men and women were out Saturday evening to hear Mr. Sears of Nanton speak on the proposed wheat pool.

Mr. O. Holtham of Jenner, Alta., came Saturday night to take charge of the store, while his daughters and son visit home folks for a few days.

Mr. Dan Harper must be complimented on the beautiful way in which he has his car remodeled as it is now one of the nicest cars in the neighborhood.

Master Herbert McKay was entertained by the Lethbridge Herald to the Ringling Bros. circus at Lethbridge on Tuesday, August 14th. His mother accompanied him there.

The Women's Institute held their meeting which was scheduled to meet at the home of Mrs. Dad Fletcher on Aug. 9, at the home of Mrs. Louise Jackson on Thursday, Aug. 16.

Quite a number of Brantites attended the dance at Ensign Friday night. Every body reported having had a fine time. Leave it to the Ensign people to show you a good time. The Frankburg orchestra furnished the music.

Mr. W. Eswick and Mrs. Lake have taken possession of the Brant hotel today (Monday). These people need no introduction, as Mr. Eswick is owner of the hotel and Mrs. Lake was in charge of same some two years ago.

British Columbia has reached the peak of the biggest tourist season in her history, and it is estimated that as a result of the enormous travel and the expenditure of transients while in the province this summer will be worth at least \$30,000,000 to B.C.

If people of the Brant neighborhood want nice dry weather during harvest, they had better take means of stopping T. J. Parker from making hay, as that is one sure way to make it rain. Now, after reading this, all beware and watch him.

The death of Mrs. Fletcher at the High River hospital occurred on August 20 after a short illness and the news will be heard with deepest regret by numerous friends throughout the country side. The funeral took place on Thursday. Sincere sympathy is tendered the bereaved family in their bereavement.

The auction sale of Mr. John Eversman's household goods as well as numerous other things which was held Wednesday, August 15, was well attended, considering the down pouring showers of rain which continued off and on throughout the afternoon. However all things sold brought very good prices, and it is understood Mr. Eversman was well pleased. Mr. and Mrs. Eversman will leave soon for California where they expect to make their future home. During their stay in Brant they have made many friends and it is with regret their friends note the departure of these highly respected citizens. The best of wishes follow them to their new home.

## ITEMS OF INTEREST

Preparations are being made for the taking of the plebiscite.

The price of sugar was reduced 40 cents per hundred lbs. during the past week.

Wheat yields will average 15 bushels to the acre throughout Manitoba this year.

Hon. Jean Cote of Edmonton, member of the Alberta legislature since 1913 has been appointed Senator in succession to the late Senator Forget.

America is to be congratulated that the first Yankee to swim the English channel is named Sullivan. It would not be strange if he had a Cork ancestry.

All 1923 passenger traffic records on the St. Lawrence were broken when the Canadian Pacific S.S. "Metagama" docked at Quebec from Glasgow and Belfast with a third-class list of 1,078 and 382 cabin passengers.

A party of fifty people representing the State of Maine Chamber of Commerce and Agricultural League will visit the province during the first week in September, in the course of a trip through western Canada.

Immigration to Canada for the month of June totalled 13,685, an increase of 88 per cent. over the corresponding month of 1922. Of the total 6,911 came from the British Isles, 2,084 from the United States and 4,690 from other countries. The aggregate number of new arrivals in Canada to date this year is 53,572.

Seven young men in Glasgow stowed away on the liner Casandra and upon arrival at Quebec were hailed before Judge Choquette who was so impressed with the sterling qualities of the young men that instead of being sent back they were invited to remain in Canada. Canada has ample room for young men of that sort.

An estimate of the amount of butter turned out in Northern Alberta for July from 39 creameries is put at 2,500,000 lbs. At an average value of say 30 cents a pound, that would mean the distribution of \$750,000 amongst the dairy farmers of that portion of the province for July. On top of this there was approximately 250,000 pounds of cheese made during the month of July.

During the month of July Canada sent 4,159 head of cattle in twelve shipments to the United Kingdom, of which only 530 were fat. The prospects for August, according to Dr. Grisdale, deputy minister of agriculture, were for even larger shipments, ten having been arranged for already and the business would probably double for the months of September and October.

Last week papers contained a news item about 2441 cases of hair tonic being seized by prohibition officers in Chicago. Upon analysis it was found to contain 93 per cent alcohol. In conversation with a grocer not far from here, we were informed that there was a heavy demand in his store for extract of lemon and stuff of that nature, which they drink and become very intoxicated as a result.

At the end of June time deposits in the banks were \$33,000,000 larger than a year before, amounting to the sum of \$1,214,245,000, or more than half the national debt. Of \$211,448,000 of Canadian bonds sold in the last seven months no less than \$136,000,000 were purchased by Canadians. There is evidently a good deal of ready cash about, but some of us will be wondering who has it.

Reports reaching the department of colonization and immigration indicate that there has already been a considerable movement of returned Canadians who in recent months were attracted to the United States by the industrial prosperity then existing in that country. The prospect of a record crop in Canada, with improved industrial conditions, and the northward movement of the wave of prosperity, is already reflected in admissions at United States border points.

Advices from London are to the effect that shipping agents throughout Britain continue to be flooded out by applications for passages to Canada for harvesting work. Every part of the British Isles is contributing its quota. Many army ex-officers, public school men, and several ordained ministers are taking advantage of the special through rate of \$60 from point of embarkment to Winnipeg. The applicants include men who have been in Canada before as laborers or farmers, and intend to stay in Canada after the present harvesting season.

Virginia growers are all most enthusiastic over Canadian potato seed, according to the statement of H. H. Hatfield, who has just returned from a trip from that state, where he was making an investigation of the outbreak of New Brunswick potato seed in comparison with that of Prince Edward Island and Maine. The productivity of the New Brunswick and Prince Edward Island were about even, but New Brunswick potatoes brought forth better formed tubers. On the whole Canadian seed proved more productive than that of Maine in the ratio of two to one.

John Albert Roland who was taken to the High River hospital on August 15 from Mr. D. McDonald's farm suffering from a wound in the head, was in Calgary on Tuesday unattended and an X-ray was taken of his head and a 22 calibre bullet was found embedded in his skull. The doctor stated that the lead was not in a dangerous position and that removal was not necessary. He returned to High River the same day and to-day was released from hospital. Constable Miller of Okotoks is here and a charge of attempted suicide has been entered and Mr. Roland will be taken to Calgary to await a hearing of the charge.

## NOTICE OF SALE

Domestic Animals Act (Municipalities)

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that the following described animals were impounded in the pound kept by Synge Brothers, located on Section 31-17-21-4, on Monday, the 16th day of July, 1923, and that the said animals were sold on the 2nd day of August, 1923:

One Bay Gelding, 7 years old, no brands, no marks, and one Bay Gelding, 9 years old, no brands, no marks. Sold to M. A. McCarthy, of Vulcan, Alberta.

One 7 year old Bay Gelding, salt left ear, branded left thigh. Sold to C. Finnegan, of Reid Hill.

One Grey 4 year old Filly, branded left shoulder. Sold to C. Northcott, of Lake McGregor, Alberta.

One Brown Gelding, 6 years old, branded left thigh, and

left shoulder. Sold to Edward Campbell, Reid Hill, Alberta.

One Brown Mare, 4 years old, white strip in face, branded right shoulder. Sold to J. Warden, of Reid Hill, Alberta.

And that said animals may be redeemed by the owners or on their behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animals. For information apply to the undersigned.

R. E. HOUSE, Secretary-Treasurer of the Municipality of Marquis No. 157, Vulcan P. O.

## CAN YOU DECIPHER THIS?

The following interesting and ingenious inscription is alleged to have been found some years ago in Devon, England, inscribed in a curiously shaped stone of black basalt. It naturally aroused quite a bit of interest amongst antiquarians:

I  
FY  
OUO  
WFOU  
RYOUR  
PAPE  
RPA  
YU  
P

## DRY FORCES OPTIMISTIC

Mr. H. H. Hull, provincial secretary of the Social Service League, returning from Lethbridge says that he has never before seen the prohibition forces so enthusiastic as they are at present. "D" is being interpreted in various ways by the speakers for the Moderation League, which would indicate a division in the ranks.

## GENERAL NEWS

The sugar beet crop at Raymond is said to be excellent this year.

According to Henderson's directory the population of Calgary is 77,827.

Our idea of fun is a telephone girl calling up a friend and being given the wrong number.

Two grain elevators will open up for business this year at Lomond, where they expect a good crop.

W. G. Collins, well known throughout the west and a former citizen of Kincairdine, died at Calgary at the age of 75 years.

Harvesters recently arrived in Calgary want the city to advance funds for their up-keep while they are looking for work.

The Manitoba Liquor Commissioners say the reason they forgot to order any Irish was because they couldn't think of anything but Scotch.

Work at \$3 per day offered by the C.P.R. to harvesters stranded in Lethbridge has been refused by many who refuse to work for less than \$4 per day. Strange that these men would prefer charity to going to work at \$3 per day.

The Prince of Wales will sail from England the first week in September to visit his ranch west of High River, Alta., coming directly to this province as soon as landing. He will return home about the end of October. The Earl and Countess of Minto are also to spend some time on their ranch adjacent to that of the Prince.

Owing to a serious impairment of the assets of the Home Bank of Canada, caused by losses sustained in a number of large loans and investments it has been deemed advisable that the institution should suspend payment. Depositors are totally affected. Other banks refused to absorb the Home Bank. The U.F.A. at Calgary had their account in the Home Bank.

Considerable grain has lodged at points near Blackie, Brant and Ensign which will necessitate extra work on the part of farmers in the harvesting thereof. The rainfall of last week was responsible for much of the lodge-ment. The weather the past week while somewhat misty has not caused any damage to grain which is gradually ripening and producing a quality that will be hard to duplicate anywhere in America.

On August 14 gas was selling at 15.4 cents at Chicago and as low as 11 cents in Dallas, Texas. Here in Alberta gasoline was retailing at 45 cents to the gallon. It would appear that nothing can affect gasoline prices in Canada and we must continue to pay tribute to Canadian oil interests. It is pointed out that the imperial gallon used as a standard of measurement in Canada is almost 20 per cent greater than the standard used across the line.

## Opening August 27th

This day and following days, there will be displayed for the inspection and selection of the Ladies of Vulcan and District, an array of Fall Hats, the newest and the proper Modes in Millinery. This is your invitation to call.

MRS. C. C. PACKWOOD, VULCAN.

## Vice-President Grant Hall Says Big Crop is Assured

Speaks with enthusiasm of Western Conditions in light of twenty-five years' experience—Big Company adds miles of new Rolling Stock to take care of grain movement

Twenty-five years intimate and continuous acquaintance with Western Canada would give any man the right to speak authoritatively of conditions there, and when that man is Grant Hall, Vice-President of the Canadian Pacific Railway, his views will be accepted without question wherever published.

Grant Hall has just returned from a tour of inspection over the line. He has been all through the West and he returns to Montreal full of enthusiasm about Western crop conditions, and quite realizing the immensity of the task that lies before the railroads in moving this crop.

It was agreed that last year's handling of the crop left no room for criticism. The tremendous task of moving out the grain was handled in splendid style by the railroads, and there is every indication the same thing will happen this year. Grant Hall, interviewed on his return to Montreal, said, "The Canadian Pacific is preparing to move the grain and we expect to keep up to all our previous good records in that line."

It was fortunate for Canada that the company months ago decided to largely add to its rolling stock. The Canadian Pacific is this year building 36 engines and 2,000 new freight cars or practically forty freight trains of fifty cars each.

Enough equipment to have moved the entire western crop of a very few years ago. This new equipment will be on hand to do its share of the work this year.

Mr. Hall makes no prediction as to the actual yield but of the general conditions he says—"In the long term of years in which I have watched the development of the grain crop I feel safe in saying that never have I been quite so enthusiastic about the prospects. Generally at this time of year there are many reports of damage by

W. GRANT HALL, Vice-President of the Canadian Pacific Railway

drought or rust or hot winds, but so far we have had no such reports and we are laying our plans to move the largest crop in the history of the west. My trip has covered practically all the grain growing west leaving Winnipeg we went south to Souris and through southern Saskatchewan to Shaunavon and returning to Assiniboia, we came back to the main line and followed it to Calgary from Moose Jaw. At Calgary we visited the stamped and I should say it was a pronounced success. Going north again from Regina we visited Saskatoon and came in by the north line through Brandon.

"For uniformity and fine growth the crops are a great sight and unless some unlooked-for calamity overtakes us we shall see a splendid harvest this year."

## Hot Weather Special
